1. It is noted that this application is now being handled by a different examiner, as set forth at the end of this Office action.

2. Upon consideration of the remarks of the response filed 05/19/09 on pages 7-8 regarding the IDS filed 07/10/06, the foreign documents previously not considered have now been considered, as indicated on the attached initialed PTO-1449.

NEW GROUNDS OF REJECTION NECESSITATED BY THE AMENDMENT

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 6, 7, 9-15, and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A) These claims are confusing because "the DNA strand" in claims 1, 17, and 18 lacks proper antecedent basis. Correction is required.

B) These claims are confusing because "the uncleaved DNA" in claims 1, 17, and 18 lacks proper antecedent basis. Correction is required.

C) Claim 7 is further confusing because the further limitation requires that oligonucleotides utilized in step b) are also utilized as primers or probes in a later amplification step, but claim 1 requires that steps b) through d), which include amplification, are conducted simultaneously. As this creates a contradiction, correction is required.

D) Claims 17 and 18 are further confusing because "the DNA to be investigated" and "the background DNA" lack proper antecedent basis. Correction is required.

4. Claims 1, 6, 7, 9-15, and 17-20 are free of the prior art, but are rejected for other reasons. As pointed out in the response filed 05/19/09, the cited prior art does not teach or suggest a method wherein the required steps b) through d) are conducted simultaneously.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
